floor. Michael had stated that he believed the shooting took place in the front room between the bar and the private booths. Later BDA learned that this was not the case. See photos attached in file.

PJ McAteer 516-384-2599 the newly appointed General Manager was then interviewed. PJ has been a friend and business associate of Ian for some years. He was recently asked to come in to help sort out the business arrangement concerning the property. PJ stated that Ian is afraid of Ms Lupo. She has threatened to burn down the club and the hotel if she is asked to leave the night club. He said that Paul Brown had provided him with a copy of a lease agreement.

PJ and Michael Kravarik were scheduled to meet with Maureen Lupo regarding her involvement in the club, later in the afternoon. MC advised them that they should surreptitiously record their conversation which is legal in NYS. On the following day BDA received electronically a transcript and audio tape which was uploaded to this case file.

Gordon Lustica 201-694-3988 was interviewed. He has been the Chief engineer of the property for more than 20 years. He stated that the cameras inside the night club have not been operational in over a year. He said that previous tenants of the club space had removed the DVRs. Gordon said that he believed that Ms Lupo had a few of her own cameras installed and that she could view remotely. He recalled that he had recently attempted to gain access to an office inside the club that Ms Lupo had been using as her own. He immediately received a call from her asking why he was trying to enter her private office. He then realized that she had a camera on the door. It had since been removed. He stated with certainty that there is no video footage of the shooting incident inside of the night club.

one of Lupo's people pointed a gun at him and said he was going to wind up like his brother. (Ian's brother was shot and killed in his Long Island home about six years ago)

Anthony Michael 516-322-1352 was interviewed. He is an outside IT consultant who was recently engaged to get a proper security camera system in place. He stated that Lupo had her own camera in the club.

BDA was able to obtain a copy of the police complaint report. The victim was named Kashawn Joseph a 37-year-old African American male. The report stated that it was originally thought that the victim sustained a small head wound as a result of a fall. It was later determined in a Cat-scan that there was a bullet lodged in his head. This confusion led to the crime scene not being maintained and ultimately contaminated. There was no ballistic evidence recovered at the scene.

BDA learned that NYPD Detective Ruda assigned to the 10 Pct Detective Squad is assigned to this case. A police source stated that a male named Jeremy Neil, AKA Mr Papers was present at the club and had been instrumental in setting up a dice game in the rear room known as the black box. The victim who is Ms Lupo's boyfriend attempted to put a stop to the gambling when he was shot by an unknown perpetrator. It was revealed by a police source that a great deal of time and effort has been put into facial recognition of attendees of the party. The source stated that this investigation is being taken very seriously and that to date there has been more than 675 DD's (investigative reports) generated by Detectives.
