Qitaow, Robert.

FYI - I am forwarding accounts from Richard Lemmerman who is part investor and part financial controller for us. He has visited several of Lupo's illegal events this Fall and observed how they unfolded. Also here copy'd.

Sincerely

Subject: One more thing

Magnus,

Also note in her threatening email about the "Brut Party". This was Oct. 19th and the one with the NYFD coming, fire alarms in the whole building.

This is my Sercurity

My team

My party

I will shut this whole shit down

And leave.

It seems pretty clear from this that it is totally her show.

Regarding Weekend of 7,8,9 email this is Paul shutting down another illegal unauthorized event event that Maureen has scheduled. She then changed tactics and began to fill the club with her 'private parties" following licensed events. I do not believe we have any evidence on this, but she would do after hours party in the front after licensed event, perhaps without alcohol, stopped at 1 AM.
